Membership Data:

2013-14:	112 Members:	89 Full Members 15 Student Members 8 Life Members
2014-15:	118 Members:	89 Full Members 21 Student Members 8 Life Members
2015-16:	There are currently five 2015-16 members, with this number set to increase considerably when conference registrations are finalised.	

Mailing List and Contact with Members:

The executive committee has discussed issues with the performance and accessibility of the sahanz-list, the Society's mailing list that is currently managed through the University of Queensland. In its current format, the list presents significant issues for the maintenance of list members and the ability to post to the list from other email addresses. We have been making progress with gaining further access to the list and aim to make changes to its structure and management in 2015/16.

The restructuring of the sahanz-list will be an important step in conducting a membership drive and contacting past members to ask if they would like to renew their membership.
